DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1 and 45-63 are rejected under 35 U.S.C. 102(e) as being anticipated by USPN 5,589,280 to Gibbons et al. (hereinafter referred to as Gibbons).

Regarding claims 1 and 45-63, Gibbons discloses a decorative or shiny coating comprising a layer comprised of a polymeric material such as polymethacrylate (paragraph bridging columns 4 and 5), a layer comprised of a metal or oxide such as titanium, zirconium, titanium oxide, or zirconium oxide (column 5, line 63 through column 7, line 61), one or more additional layers comprised of a compound such as titanium nitride or zirconium nitride (column 7, line 64 through column 8, line 14), and a fourth layer comprised of a polymeric material such as polymethacrylate and the like (column 3, lines 38-45 and column 8, lines 15-22).

Response to Arguments

3. Applicant's arguments filed 4/22/2003 have been fully considered but they are not persuasive.

The applicant asserts that Gibbons does not read on the currently pending claims

Art Unit: 1775

claiming a coating for an article, wherein the coating comprises a layer comprised of polymeric material on at least a portion of the surface of an article. The applicant asserts that the polymeric basecoat layer of Gibbons is the article (substrate), not a coating layer on at least a portion of the surface of an article. The examiner respectfully disagrees. The examiner asserts that Gibbons discloses that the coating comprising the polymeric layer may be applied to at least a portion of the surface of an article (column 3, lines 46-61, column 5, lines 24-28, and column 8, lines 33-41).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
